

DOWN TO THE RIVER

She said I'm going down, she said don't you know I'm going down

I'm going down (I'm going down)
Down to the river (Down to the river)
I'm gonna' wash (Wash)
All my sins away (All my sins away)
Feel that revival (Feel that revival, witness)
You just need a witness
I'm gonna' save (save) save our weary soul (save our weary soul)

She said why can't you come with me now,
She said why don't you come with me now

Well I said I can't, I can't go down to the river
You see I lost my faith some time ago
I feel so funny being amongst the faithful.
(They always judge you like they was Jesus Christ himself).

She said baby (baby) those are not the faithful
(Those are not the faithful)
(True believers leave the judging up to God).
So if you go down (so if you go down)
You can sit by the water (sit by the water)
Let the (cool breeze) blow all your trouble away
(All your trouble away)
You don't need to worry (no need to worry)
'Bout what anybody else say (else say)
It ain't nobody's business the things you're tryin' to do.

I said are you with me now, I said are you with me now.
I can't hear you now, come on, come on 'cause we're all going...

Down (We're going down)
We're going down to the river (Down to the river)
We're gonna' wash (Wash)
All our sins away (All our sins away)
Feel that revival (Feel that revival, witness)
You just need a witness
I'm gonna' save (save) save our weary soul (save our weary soul)
