

LONG WALK

It's a long walk; it's a long, long walk
You know it's such a long walk
To find the thing you love, the thing you love

It's a long road it's such a long, long road
You know it's such a long road
To find the thing you love, the thing you love

But I'm so close to redemption, I can feel it in my blood
And I'm a heartbeat from decision, are my lonely days gone?
And I'm a stones throw from salvation
This road is so wide there is room will you meet me half way?
Can you meet me half way?

Sometimes you think you found it there, you think you found it there
You think you found the thing you love, the thing you love
Then you turn around it's gone
You know it's so hard to leave the garden Lord it's so hard
To find the thing you love, the thing you love

CHORUS

Ya' got ta' give me just a little bit, just a little time
You know I'm gonna' find it
Give me just a little sign just a little sign you know and
I will be fine
Takes this heart just a little bit longer darling but I'm gonna'
Find my way
And I know, I know when I get there
It's gonna' be my home

It's a long walk; it's a long, long walk
You know it's such a long walk
To find the thing you love, the thing you love
But I'm gonna' keep on walkin' I'm gonna' keep on walkin'
If it takes all my lifetime to find the thing I love
The thing I love.
