

SAVE US NOW

Hey yeah, yeah, only love will save us now
Hey yeah, yeah, only love will save us now

See all the children laugh and play for them
Life is just a game
Hear their innocent cries and know that we all can do the same

CHORUS

Can we still believe that there is hope?
Or have we truly lost our way
Surrounded here by greed and hate
While the beauty slips away

CHORUS

If there is peace, there will be love
If there is love there'll be no more sorrow
Then they'll be hope, hope for tomorrow
Just this once, can there be enough love

If there is peace, there will be love
If there is love there'll be no more sorrow
Then they'll be hope, hope for tomorrow
Just this once, can there be enough love

See all the children laugh and play for them
Life is just a game
Hear their innocent cries and know that we all can do the same

CHORUS
